This event by [Asbestos](#) is the final stage in the creation of a triptych of drawings about loss of memory and the effects of the disease Alzheimer's, both for the person with it and for those around them. The artist has created these drawings on the surface of three blackboards, which will be installed in the Hugh Lane Gallery on Culture Night. For Culture Night, the artist invites members of the public to enter the gallery, pick up a duster and a piece of chalk, and engage with the process of erasing or adding to these artworks. During this time, the artist will be present to observe, but will have no engagement with the drawings once this process begins. Read more about *Erase My Memories* [here](#).
